## SUMMARY

---

Full Stack & Mobile App Developer with 1.5+ years' experience delivering end-to-end applications using **Java, Spring Boot, React, React Native, PostgreSQL**. Strong in role-based systems, real-time features with WebSockets, REST APIs, and deployments on Vercel/Render/Railway. Built 3+ production-ready apps from scratch, deployed and live.

## EXPERIENCE

---

### Full Stack Java Developer

Oct 2024 – Present

*Vallaham*

*Coimbatore, India*

- Developed full-stack applications using **Spring Boot + React**, implementing JWT authentication and role-based access.
- Used Axios for API calls, improving request handling and error management.
- Integrated REST APIs with modern UI components for seamless UX.

### Software Developer Intern

Aug 2022 – Nov 2022

*PSG Institute of Management*

*Coimbatore, India*

- Built an **Alumni Portal** using PHP & MySQL with modules for login, job board, and events.
- Delivered responsive UI and optimized SQL queries for faster load times.

## PROJECTS

---

### Skoolo | *React, Spring Boot, PostgreSQL, WebSockets*

2025

- School communication app for teachers, parents, and admins to manage attendance, marks, assignments, and schedules.
- Implemented **real-time chat** between teachers and parents using WebSockets.
- Built role-based dashboards for teachers, parents, and admins with secure login.

### Lead Management System | *Spring Boot, React, PostgreSQL*

2024

- Lead tracking system with multi-stage progression and categorization (Hot/Warm/Cold).
- Enabled detailed meeting logs and admin analytics dashboard.

### Task Management Tool | *PHP, MySQL, JS*

2023

- Admin-user workflow for assigning and tracking tasks with overdue detection and deadline notifications.

## EDUCATION

---

### M.Sc. Software Systems (Integrated 5-Year)

2019 – 2024

*PSG College of Arts and Science*

*Coimbatore, India*

- CGPA: 7.9

## TECHNICAL SKILLS

---

**Languages:** Java, JavaScript, PHP, SQL, HTML/CSS

**Frameworks:** Spring Boot, React, React Native, Bootstrap

**Databases:** PostgreSQL, MySQL

**Tools:** Git, IntelliJ, VS Code, Postman, Docker

**Concepts:** REST APIs, JWT Auth, MVC, Microservices, WebSockets

**Deployment:** Vercel, Render, Railway, Firebase Hosting

## CERTIFICATIONS

---

Java Spring Framework 6 with Spring Boot 3 – Udemy (Telusko), 2025
